Dear Parent / Carer

Each year we have to make difficult decisions about the courses that each student pursues. In Science, this has meant a choice between Double Science (now known as Trilogy) and Triple Science.

This year, the interest in Triple Science has been very low, and therefore we intend to run the Trilogy course (double GCSE award). This is following careful consideration of the full Y11 cohort and the greater level of success for students studying Trilogy (the only grade 9s in Science this year were in Double Science).

We realise that there may be students who had fully intended to pursue Triple Science who this news may come as a disappointment to. For those students we would consider running a Triple Science course on an extra-curricular basis. If your child falls into this category, please contact me to arrange a meeting to discuss their suitability for this option. We will consider Year 10 attainment, their attitude to learning in Science and future aspirations when making this decision.

Please be assured that Trilogy Science is a perfectly acceptable course to pursue for A-Levels or degrees in any Science, including Medicine and Veterinary Science.

Yours faithfully,

Mr G Butler
Subject Leader (Science)
